Professional Summary

Software Engineer and military veteran with experience supporting government and enterprise technology environments. Skilled in JavaScript, HTML/CSS, Python, PostgreSQL, Oracle, and Git. Experienced in database administration, scripting, troubleshooting, and software development support. Currently completing a Bachelor of Science in Information Technology with a strong interest in full-stack development, cloud technologies, and software engineering.

Technical Skills

Category	Skills
Programming	JavaScript, Python, HTML5, CSS3
Databases	PostgreSQL, Oracle, MySQL, PGAdmin
Tools	Git, VS Code
Concepts	Software Development, Database Administration, Troubleshooting, Scripting

Professional Experience

Database Administrator / Software Developer — NGA (Jan 2023 – Nov 2024)

- Performed daily PostgreSQL database updates and maintenance using PGAdmin and Oracle tools.
- Supported software development and scripting tasks for internal projects and operational needs.
- Assisted in developing export functionality to improve database usability and reporting workflows.
- Collaborated with technical teams to troubleshoot and maintain system reliability.

Site Reliability Engineer — Moonshot Labs (Mar 2023 – Oct 2023)

- Supported system reliability and operational scripting efforts in a professional development environment.
- Worked within government-focused technical projects while strengthening automation and troubleshooting skills.
- Collaborated with engineering teams to support stable and secure application environments.

Signal Communications Specialist — U.S. Army (Nov 2019 – Mar 2023)

- Managed and maintained secure radio communications between multiple military installations.
- Led and trained a three-person communications team on daily operational responsibilities and equipment usage.
- Conducted preventive maintenance and repairs on signal communication systems for emergency readiness.
- Performed daily COMSEC encryption checks and maintained communication security standards.

Sales Representative — Auto Assure (Jun 2016 – Sep 2019)

- Assisted customers with vehicle warranty options and coverage recommendations.
- Maintained detailed customer records and coordinated follow-up appointments for specialized cases.

Projects

Photo Gallery Application – Built an interactive JavaScript photo gallery using DOM manipulation, event listeners, CSS, and HTML.

Ticket Purchasing Application – Developed a JavaScript application supporting account creation, ticket purchasing limits, and countdown functionality.

Education

American Public University System — Bachelor of Science in Information Technology (Expected September 2026)
University of Maryland — Associate of Arts in Computer Studies, 2022
